Hey Jim, Chris and Kevin-

I heard you may not have received all of our POLREPS. I've included all of the ones we currently have out there in addition to our air surveillance map. You'll notice two different types of POLREPS. The PJ1 is for the air surveillance. The RV1 is the Removal Action. The PJ1 type will stop as soon as the purging/flaring is complete. Even if you did receive the previous POLREPS, please save this version as I made a couple of changes to them. As always, let me know if you have any questions. Thanks,

Shawna
